Lockhart Shire Council

FEES AND PRICING POLICY

Council intends to charge fees for the provision of all goods and services that it provides within legal constraints. These fees will be charged to all Council's clients that avail themselves of Council's goods and services. The purpose of raising these fees is to recover, or assist the Council in recovering, the cost of providing these services.

Fees and charges included in this Operational Plan are GST inclusive where applicable.

The attached schedule of fees and charges has been prepared using the best available information in relation to the GST.

Impact on the fees and charges at the time of publication of the Operational Plan.

Accordingly, if a fee that is shown as being subject to GST is subsequently proven not to be subject to GST, then that fee will be amended by reducing the GST to nil. Conversely if Council is advised that a fee which is shown as being not subject to GST becomes subject to GST then the fee will be increased but only to the extent of the GST.
